

# MENTORING CASE STUDY

From unanswered applications to full-time work and a qualification, **Greg's** talents were allowed to shine with a little bit of support!

## How it started...

- 7 months unemployment
- Not hearing back from employers
- Uncertain on CV and interviews

## The Jobcentre were great...

*"...but referred me to the **Mason Trust** for some extra mentor-led employability support"*

## I got my own mentor

*"Shae was really friendly and easy to get along with, we were always on the same page. She had dozens of practical ideas and suggestions up her sleeve; she helped me perfect my CV"*

## Bespoke Support

*"The programme helped me find jobs that I could apply for and gave me some brilliant interview advice. When yet another employer turned me down, Shae would already have another job or two lined up! Having a mentor has definitely helped me with my confidence, she was always there when I needed support!"*

## How it's going...

*"I am now a full-time Administrator working for the Murphy Group, handling documents, spreadsheets and weekly reports for probably the best family-run construction firm in the world! Not to mention, I have just recently passed a level 2 accounting course giving me an accounting qualification equivalent to a GCSE. I owe a great deal of my success to Shae, who never let me give in when employers turned me away. I'd refer Shae to anyone, anytime." - Greg*
